

# FOREST LEAVES.

VOL. 3.

CRANDON, WISCONSIN, MARCH 10, 1887.

NO. 1.

## Floored.

### That Expresses it O. K.

**Monico's Plans and Monico's hopes of the County Seat, a bursted bubble.**

The Queen of the Bog sitteth disconsolate, and refuseth to be comforted, because she hath not—

The county seat question was settled by the following amendment to a Senate bill:

"And provided further, that no such election, to change the county seat of any county, shall be held for a period of five years, after the year in which a court house, or any other county building, costing \$3,000, or more, shall have been built at the county seat, and occupied for county purposes."

Whether Monico was hunting for tamarac gum, or looking after her coming hatch of mosquitoes, when the bill passed, is not known, but her eloquent lobbyist was expatiating on his brawn and brain to a very attentive party, when the bill passed the Assembly. Ha! ha! ha! Who wouldn't laugh, save it be, the little hamlet over in the swamp.

## ARRESTED.

**Masbaum called to legally explain why the public health demands so much "medicine."**

Sheriff Woodbury last week Thursday, served a warrant on J. Masbaum to appear before justice Riggs and answer to the complaint of selling liquor without a license. He appeared, I. G. Champion accompanying him, presumably as counsel. A change of venue carried the case to justice Cook, who held it over until the 17th inst, in order to notify the District Attorney. The town authorities mean business, and public sentiment is right with them. At a time when this question of the liquor traffic is interesting state after state in its suppression, and capital is seeking investment where the rum power is not dominant, it will not do for our bright town to let the rum power in.

We want mills and factories—saloons will pass them to points where sobriety and enterprise governs.

Crandon's prospects for becoming a grand resort point are indeed bright. Nothing will injure such prospects more than saloons.

We want beautiful homes and a progressive people, Saloons will not give us either.

We want fine schools and a leading educational institution, Let saloons in, and our chances for the latter are ruined.

We want these and kindred elements of a cultured and progressive community. Saloons will forever retard progress in such direction.

These are the high and commendable motives that govern the authorities in the action mentioned above. With almost one voice our people say prosecute any and all who attempt to stay progress in our bright town with saloons, or the illicit sale of whiskey.

## A Promising Town.

Clippings from the opinion of a visitor, recently at Crandon.

[SHEBOYGAN NEWS.]

"John F. Kennedy, who recently made a trip up the Lake Shore road, was very much pleased with the trip, and has the following to say about the country.

There is an abundance of timber, hard and soft. Where the soft timber grows, the soil is sandy loam with hard sub soil. Where the hard timber grows the soil is clay loam. There are lots of beautiful lakes, abounding with fish. At Crandon, the county seat, 18 miles east of Pelican Lake, at the north end of Lake Metonga, a beautiful sheet of water, about four miles long by two wide, the fish are remarkably large.

Crandon is a smart little temperance town; its people are remarkable for their business enterprise and hospitality. Every one seems to want to do you a kindness, and the good heart shines out in honest faces, that have a smile and a kind word for every one they meet. We were met at the hotel by its genial landlord, and in ten minutes were perfectly at home with him and his interesting family. There is not a town north of Milwaukee, where board is so good and so cheap.

A \$3,000 court house of neat style and with modern improvements has been built. It stands in the center of a beautiful natural park of eight acres. A commodious two story school house has also been provided.

Two lively newspapers are published at Crandon—the FOREST REPUBLICAN, by S. Shaw, and the FOREST LEAVES, by M. A. Fay. A first class hotel is run by Osborne & Poppy; there are four stores, P. O. blacksmith shop, wagon shop and saw mill.

This promising town lies five miles south of the S. St. Marie R. R. (now in the course of construction) and is surrounded by a splendid country, hard timber, and beautiful lakes—just the place to have a good time hunting and fishing. \* \* \* \* \*

A grand country indeed; one that is destined to rapidly develop, and just the country for a young man of limited means."

THE DUTY OF STATE LEGISLATURES.

Legislation should be effected in every state, regulating the sale and use of the many poisons resorted to by women, in their desperation to obtain beautiful complexions, while their exists in Dr. Harter's Iron Tonic, every requisite necessary to accomplish the object without injuring the health, or endangering life.

Last week's issue of the REPUBLICAN contains a well written and pleasing article headed "Lakeland"—the initial of a series on the many beautiful lakes in this locality. It fittingly takes Lake Metonga as its introductory. Metonga ranks the Queen lake of Wis., and the pen fails to picture its beauty, though gifted, and tongue to word the inspiration its beauteous charms awakens. Its ice bands will soon be broken, and the music of its waters as they lave its broad and charming beach, will blend in sweet melody with the woodland bird chorus, that welcomes spring. We await with interest the next article on "Lake—"

## CHURCH SOCIAL.

The Ladies of the Presbyterian church will give a social at Barker's hall, this evening. The Ladies of our bright little village do nothing by halves, and we guarantee that this will be a WHOLE SOCIAL in all its features—literary, musical and social. Refreshments will be served. Fill the hall, and aid the ladies in their commendable effort to start a fund for the purchase of an organ for the society.

## Here and There.

Knocked out—Monico.

"Sickly," just now—Monico.

Swamped, sure this pop—Monico.

Who wants Monico? Echo answers Wh-e-w-w-w.

Now Monico might secede and join Canada.

It is rumored that Masbaum has been over to see the District Attorney since his arrest. That official represents the state.

G. Bailey is rushing in the logs at a lively rate. He will finish cutting the Rorer pine this week.

J. Beauregard reports work on the Soo progressing lively in the Peshigo country. A party named Williamson has a contract to cut and grade 5 1/2 miles in that locality, and is now erecting boarding shanties on section 29, township 37, R. 13.

SEEDS FOR THE CHILDREN.—Joseph Horris, one of the editors of the American Agriculturist, offers to send any boy or girl under 15 years of age, the best of garden seeds free by mail, at 25 per cent less than regular rates. This is not a humbug. It is a genuine offer. Send for his seed catalogue of 1887, with directions for cultivation. It is sent FREE to all applicants, and is well worth reading. Send at once. Address, Joseph Harris, Moreton Farm, Rochester, N. Y.
